CINCINNATI (WXIX) - Four people died in apparent accidental drownings across Greater Cincinnati over the Fourth of July holiday weekend.

A 38-year-old Mt. Healthy woman died Saturday at the University of Cincinnati Medical Center shortly after she was rescued from the Great Miami River, according to the Hamilton County Coroner's Office and Hamilton police.

"The Hamilton Fire Department was able to get the victim out of the water and attempted life saving measures and transported the victim to the Kettering Hamilton Hospital," he said.

The woman, 38, was transferred to UC hospital where she later died, according to the coroner's office and Lt. Ungerbuehler.

He said the Ohio Department of Natural Resources is investigating.

In Colerain Township, a 32-year-old man died Sunday at UC hospital after he was found unresponsive in a pool at Prime Apartments & Townhomes at White Oak on Rocker Drive, according to the coroner's office and a township news release.

Two people - a 49-year-old man and 14-year-old boy - also [drowned in separate incidents at the same state park](#) within 24 hours of each other, according to the coroner's office and ODNR.

Both vanished in the lake at East Fork State Park, confirms an ODNR spokesman.

The teen was last seen swimming outside the swim zone Sunday and the man went missing in the lake at the main beach, he said.

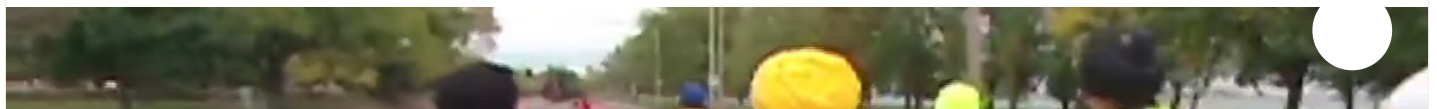

The teen's body was recovered from the lake early Monday.

The incidents all remain under investigation so it's not clear yet what led up to each drowning incident.
